I'm a passionate developer with a **good understanding of UX/UI design**. **Reliable** and **organized** with a **keen eye for detail**. As a **team player**, I have **great communication skills** and am adept at **working under pressure**. I'm a **problem solver**, strongly motivated to achieve success in every task at hand.

TECH STACK

Frontend: Java Script • React • CSS • HTML • Material UI • Bootstrap • Redux • TypeScript

Backend: Node • Express • C#

DBs and Tools: Firebase • Git • MongoDB • MSSql • Postman

PROJECTS

Board Games Website, <https://play-date-board-games-website.web.app>

Users can browse games and upcoming events. Once logged-in or registered, users can join, create, and delete events, create, read, edit, and delete comments and much more. I used React, Material UI, Firestore Database, Firebase for Authentication, Storage, and Hosting.

Chat and Play, <https://github.com/Lena-Kalmikov/Chat-And-Play>

Users can play tic-tac-toe and chat with a friend in a private chatroom online in real-time. I Used React for Frontend and Node, Express and Socket.IO for Backend, deployed to Azure.

Bookstore Catalogue Website, <https://github.com/Lena-Kalmikov/Bookstore-Catalogue-Website>

See top commented books, filter by genre, and add book reviews. Perform CRUD operations as Admin. Backend: C# using the MVC pattern in .Net ASP Core. Frontend: JavaScript, CSS, HTML. Database: MSSql.
