Lena Kalmikov, *Frontend Developer*

0527979366 | elenakalmikov@gmail.com | LinkedIn | Portfolio | GitHub

Languages: **Hebrew** (Native) | **English** (Fluent) | **Russian** (Native) | **Spanish** (Intermediate)

Frontend developer with a deep love for coding and a solid grasp of UX/UI design. A self-learner adept at problem-solving and troubleshooting. A team player with experience working in a global company. Looking for a role that encourages meaningful contributions and inspires ongoing professional growth.

TECH STACK

Frontend: JavaScript • React • CSS • HTML • Material UI • Bootstrap • Jest

Backend, DBs, and Tools: Node.js • Express.js • C# • Firebase • Git • GitHub • MongoDB • MSSql • Postman

PROJECTS

- **Board Games Website, Live demo** | GitHub

  Designed and developed a website for board game enthusiasts to connect and organize gaming sessions. Focused on UX/UI and ensured aesthetic appeal, intuitive navigation, and full responsiveness, including dark and light modes, page animations, loading skeletons, maps, and alerts.

  Enabled users to browse board games, view upcoming events, and join them. Implemented functionalities for registered users to create, join, and delete events, manage event participation, and engage in interactive features such as creating, reading, editing, and deleting comments. Utilized technologies such as JavaScript, React, Material UI, Jest, Firestore database, and Firebase for Auth, Storage, and Hosting.

- **Chat and Play, GitHub**

  Created an online platform for users to play tic-tac-toe and chat in real-time with friends within private chatrooms. Implemented using JavaScript, React, CSS, Node, Express, Socket.IO, deployed to Azure Cloud.

- **Bookstore Catalogue Website, GitHub**

  Developed a platform allowing users to explore popular books, filter by genre, add book reviews, and perform CRUD operations as Admin. Built with C# using the MVC pattern in .Net ASP Core, JavaScript, CSS, Bootstrap and MSSql database.

EDUCATION

- **Full Stack Development Bootcamp,** *Sela College* — 2022 – 2023

  A year-long program that covered essential concepts such as *OOP, SOLID*, Data Structures, Algorithms, Complexity, Design Patterns, various programming languages, frameworks, and databases.
- **React - The Complete Guide (including Hooks, React Router, Redux),** *Udemy* — 2023
- **React, NodeJS, Express & MongoDB - The MERN FullStack Guide,** *Udemy* — 2023
- **Linguistics,** B.A, *Hebrew University of Jerusalem* — 2013 – 2016

PROFESSIONAL EXPERIENCE

Project Manager, *Baguette Translations* — 2016 – Present

Working in an international company with clients and colleagues around the globe. Managing the full lifecycle of a project, including budget and resources. Working under tight schedules, tackling problems, and quickly finding suitable solutions.

VOLUNTEERING

For 3 years, I volunteered as a linguistic editor at 'Little Big Science,' a non-profit organization committed to advancing science accessibility to the public, a cause which I find immensely important and fulfilling.
