

Lena Kalmikov, Project Manager

0527979366 | Kiryat-Ono | elenakalmikov@gmail.com | [LinkedIn](#) | [Portfolio](#)

Project Manager with 9 years of experience leading end-to-end projects in a global B2B localization company. Full-stack development bootcamp graduate with a solid technical foundation to understand how features are built and collaborate effectively with engineering teams.

PROFESSIONAL EXPERIENCE

Project Manager, Baguette Translations 2016 – Present

- Managed end-to-end delivery of multilingual localization projects for global B2B customers (US/EU), owning scope, timelines, budget, risks, and client communication.
- Coordinated cross-functional delivery across linguists, editors, QA, and internal operations; maintained delivery alignment across time zones and rapidly changing priorities.
- Recovered at-risk deliveries under tight deadlines by identifying blockers early, re-planning execution, and negotiating scope/timeline trade-offs to meet client commitments.
- Led a company-wide migration from local hard-drive storage to Dropbox, improving file access/sharing efficiency by 30% and enabling real-time collaboration for distributed teams.
- Created onboarding SOPs for translators on new client localization platforms, reducing project turnaround time by 15% through faster tool adoption and clearer execution standards.
- Reduced rework by 25% by implementing a structured QA workflow with quality gates, review checklist, and pre-delivery validation.
- Optimized resource allocation and vendor workload balance using a proprietary Project Management System to track dependencies, scope changes, costs, and purchase orders.
- Supported multiple parallel deliveries across 10+ languages and ~80 vendors/month while protecting delivery dates.

EDUCATION

Full Stack Development Bootcamp, Sela College 2022 – 2023

B.A. in Linguistics, Hebrew University of Jerusalem 2013 – 2016

CORE COMPETENCIES

Project Planning • Agile delivery • Scope & Change Control • Dependency & Milestone Tracking • Capacity Planning & Resource Allocation • Budget & Cost Control • Risk & Issue Management • Stakeholder Management • Cross-functional Coordination • Quality Control • Documentation (SOPs)

SKILLS

Tools: Google Workspace • Proprietary Project Management System (project/stage tracking, POs, costs, dependencies) • Postman • GitHub • Jira • Trello

Programming: JavaScript • React • CSS • HTML • Material UI • Node.js • C# • Firebase • SQL

Languages: Hebrew (Native) • English (Fluent) • Russian (Native) • Spanish (Intermediate)

VOLUNTEERING

Linguistic Editor, Little Big Science 2017 – 2020

Volunteered as a linguistic editor for a non-profit organization dedicated to making science accessible to the public.
